COMPUTER CERTIFICATION: computer certifications are accepted by all state and federal agencies and used for any type of travel.

- **1.** A certification of a registered birth (2004 to present), supplies the following facts of birth: Child's Name, Date of Birth, Sex, Time, Weight, Place of Birth (City, County and Location) and Parents' Information.
- **2.** A certification of a registered birth (1930 to 2003), supplies the following facts of birth: Child's Name, Date of Birth, Sex, County of Birth and Parents' Name.

AVAILABILITY: Birth registration was not required by state law until 1917, but there are some records on file dating back to 1865.

ELIGIBILITY: Birth certificates can be issued only to:

- 1. Registrant (the child named on the record) if of legal age (18)
- 2. Parent(s) listed on the Birth Record
- **3.** Legal guardian (must provide guardianship papers)
- 4. Legal representative of one of the above persons
- 5. Other person(s) by court order (must provide recorded or certified copy of court order)

In the case of a deceased registrant, upon receipt of the death certificate of the decedent, a certification of the birth certificate can be issued to the spouse, child, grandchild, sibling, if of legal age, or to the legal representative of any of these persons as well as to the parent.

Any person of legal age may be issued a certified copy of a birth record (except for those birth records under seal) for a birth event that occurred over 100 years ago.

BIRTH RECORDS UNDER SEAL: Birth records under seal by reason of adoption, paternity determination or court order cannot be ordered in the usual manner. For a record under seal, write to:
