permits, which meet our codes, even though the areas may be considered jurisdictional wetlands by the
other agencies. Their laws may prohibit any type of construction/fill on your lot. Please be sure to obtain
clearance/permits from these agencies before any fill is added to your lot.
FOR NEW/EXISTING/MODIFICATION SYSTEM APPLICATIONS: The site plan shall be DRAWN TO SCALE and shall be for the property where the system is to be installed.  1. The site plan shall SHOW BOUNDARIES WITH DIMENSIONS and any of the following FEATURES THAT EXIST OR THAT ARE PROPOSED:

If the features are within 75 feet of the applicant lot, the estimated distance to the feature must be shown but need not be drawn to scale.

☐ 3. If the county health department will not be performing the site evaluation, the applicant or authorized agent shall be responsible for the measurements to all features, including the pertinent features within 75 feet of the applicant lot. The applicant must also show the location of that one acre or larger parcel inside the total site ownership. To scale parcel must be large enough to provide sufficient authorized flow.

In an effort to provide you with timely service, protect your property and our personnel, all underground utility lines (such as gas, water, electric, cable, phone, etc.) must be property marked prior to our employees visiting your site. Should utility lines not be marked prior to a site evaluation and an underground utility line is struck when we perform a soil boring (6 feet deep) the property owner will be responsible for any damage, including injury to our personnel.
