Emergency Preparedness Apps to help you PREPARE!

THE FIRST 72 ARE ON YOU!

- The one-stop App for Okaloosa County!
- Daily Situation Report
- Access to Okaloosa County social media
- Evacuation routes
- Shelter information

Date: September 09, 2013

Road closures:

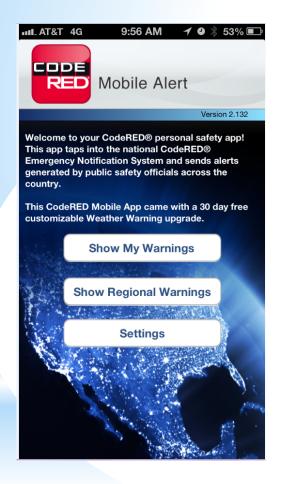

Traffic on U.S. 90 from east of Shoal River to the Walton County line in Okaloosa County can expect intermittent lane restrictions as crews take pavement samples from the roadway Tuesday, Sept.10. Lane restrictions will remain in effect between 9 a.m. and 12 noon.

Reeves Road in Baker will be closed an additional 30 days, due to inclement weather. The closure at Penny Creek began May 28, has been extended through September. The timber bridge is being replaced with a concrete bridge. Access will be available up to the closure on each side, but no through traffic will be permitted. Griffith Mill (west) or Galliver Cutoff (east), connected by Hwy 4 is the detour route.

Learn About Community Resources and How to Participate

The ability of your neighborhood, workplace, or school to respond effectively after an act of terrorism, a large earthquake, o r another disaster might depend on how well you use resources available in your community **now**. Local fire, law enforcement, medical services, and other personnel might be overwhelmed and unable to assist you after a disaster. But they can help you prepare to be self sufficient if you use their services before the next emergency.

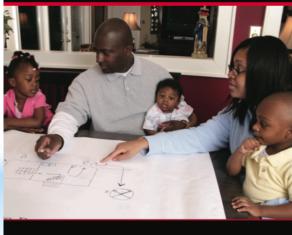

The Community Emergency Response Team (CERT) program can also be a useful resource. It is a nationwide all-risk, all-hazard training program. This valuable course is designed to help you protect yourself, your family, your neighbors, and your
