FT. WALTON BEACH, Fla. — The Florida Department of Health in Okaloosa County (DOH-Okaloosa) has issued a water quality advisory for the following location:

**Liza Jackson Park
338 Miracle Strip Pkwy SW
Fort Walton Beach, FL 32548**

Tests completed on Monday, April 1, 2024, indicate that the water quality at Liza Jackson Park does not meet the recreational water quality criteria for *Enterococcus* bacteria recommended by the Florida Department of Health.

DOH-Okaloosa advises against any water-related activities at this location due to an increased risk of illness in swimmers. Sampling conducted during regular water quality monitoring showed that the level of bacteria exceeds the level established by state guidelines.

This advisory will continue until bacteria levels are below the accepted health level. Test results are available at FloridaHealth.gov/HealthyBeaches.

For more information call 850-833-9247 visit www.HealthyOkaloosa.com.

About the Florida Department of Health

The Department, nationally accredited by the [Public Health Accreditation Board](#), works to protect, promote, and improve the health of all people in Florida through integrated state, county, and community efforts.
